Dear Parents

We are once again excited to offer our children the opportunity to have home access to 'Education City', a learning tool used within school that has been renewed.

Education City is a website packed full of educational games and activities for children to practise their English, Mathematics and Science skills. It is an engaging and fun way for children to learn. To access the site we are asking for £5 per family for a subscription which will expire on 31st August 2020. This is exceptional value for money as the children can access the whole curriculum for their year group. This contribution will be used towards ongoing computing equipment upgrades.

Once we have received a payment you will be supplied log-in details for home use.

If you wish to see what Education City has to offer your child before deciding upon home access, please visit - <https://www.educationcity.com/parents>

We hope you take advantage of this exciting and valuable resource.

Yours sincerely

Mrs K. Cain
