  ➤ Phase 1

Nursery are learning within phase 1 phonics and working towards phase 2

It is important not to rush through the phases as this may create gaps in their understanding. This could later impact their reading development.

Can you continue a rhyming string?

How many more words will you think of with the same rhyming sound?

Taking Turns

Time to find your favourite board game
What will it be?

"In my house our favourite board game is monopoly or connect four"

- Board games are predictable and have rules and this appeals to many children.
- Revisit the rules before you play. Can you remember them?
- Start with games for two players so your turn comes around quicker and start by playing with an adult/older sibling.
- Beginning with simple, visual games and those that involve spinning a wheel or throwing a die are good for turn-taking practice.
- Increase the number of players as you improve your turn-taking skills.
- Patience pays off!

Challenge - You may like to video call your family and play in teams.
Could you keep a score for each player/ team win?
