Think about when the boy remembers that he should be helping the Martian. What do you think he is saying to the Martian? Act it out picture by picture.

You could begin with something like... Oh no! I am supposed to be helping the Martian. I completely forgot!

Describe how you feel and why?

Talk about getting what you need from the cupboard and why you need it (a backpack, a spanner and some petrol).

Then talk to the Martian. You may want to say that you are sorry but promise her that you are on your way. Explain what you were doing (watching TV and eating popcorn) and that you forgot you were supposed to be helping her

You might want to create the setting at home using props and draw pictures of the characters.

<u>Maths</u>

Today we are going to be counting in multiples of ten.

Children count in groups of tens, using concrete, pictorial and abstract resources – such as pictures, bead strings and number lines to support their counting.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20

- 1. Find different small objects to make in bundles or groups of ten.
- 2. Use your 100 square grid to remind you to count in tens.
- 3. Count each bundle or group in tens.
- 4. Choose other small objects to make in bundles or groups of ten.
