With Safer Internet Day taking place on 6th February 2024 we are launching our very own Codsall Multi Academy Trust search for an online safety champion! Your challenge is to design a character that is relatable to children and young people and represents the DFE focuses of : Contact, Content and Conduct that help keep us all safe online.

All entries must be submitted to your school by **Friday 9th February 2024** before being taken to the official judging panel. Please remember to put your name, year group and school name on the reverse.

An overall MAT winner will be chosen and announced shortly after and a runner up from each school, all of whom will be rewarded with a prize.

The winning design will be used in the Multi Academy Trust Online Safety messages and policies and will help protect hundreds of children and young people.

Designs can be created in any media and should be submitted on no larger than A4 paper please.
