STEM Experience at Codsall Middle School on Wednesday 13th March

Dear Parents/Carers,

I am writing to inform you of an exciting STEM session at Codsall Middle School as part of our Science Week at Birches First School.

On Wednesday 13th March, there will be a STEM session at Codsall Middle School. Our children will be welcomed to Codsall Middle School (CMS) and will learn within specialist Science laboratories, where there will be a carousel of activities, including density columns, lava lamps and water striders (using copper wire) to name just a few!

These sessions will be led by Year 8 STEM Ambassadors and staff at Codsall Middle School, with Birches First School and St Nicholas children and staff all getting involved! We believe this is a lovely way of practicing Science in a specialised learning environment and a superb way for the children to get familiar with both a local Middle School and children from another First School.

The children will eat lunch at school, as normal, as they will either visit the Middle School in the morning or afternoon. Please also ensure your child has suitable school shoes and coats for the walk.

Thank you for your continued support!

Best wishes,

Mr. Piggott
