

Curriculum Pathways – Geography Unit Themes

Our curriculum enables our children ask questions and provide answers to questions about physical and human aspects of the world. It inspires the children’s curiosity and fascination about the world to understand the relationship between people and their environment. It helps to prepare our children for British Life by giving them the opportunity to develop a greater understanding and knowledge of the wider world, as well as their place in it.

Life in the Arctic

Rivers and Canals

Year 4

Earthquakes and Volcanoes (Italy)

Compare and Contrast: Europe (Italy)

Compare and Contrast: South America and the Amazon Rainforest
