

Dear Nursery,

Well what a mixed week we have just had with the weather. I'm not sure it can make up its mind!!!

This week we are hoping to explore our gardens through different activities on the home learning grid.

In Nursery we hope to be planting a variety of seeds to grow and continue developing our Rainbow garden with some weeding and watering. We have added the bee rocks we made in Nursery and hoping for some more to bzzzz in from the children at home!!!

The outside jungle in school is having a big clean up, with some help from the orange bubble and Mrs Causer. We are continuing to develop the area with a digging area and some den building taking place.

Please send any photo updates of your growing challenges from home- we would love to see.

I hope the children returning to the violet bubble have managed to watch my video and are excited about seeing some of their friends. I will be looking out from my bubble to give you a little wave and a thumbs up.

Wishing you all a wonderful week.

Mrs Mogyey
